

NEW

GC HAND WASHBASIN WITH ELECTRONIC CONTROL

High quality, nice design at competitive price !

3 new models :

PRACTICAL

Attractive compromise between space and comfort. Its rectangular basin, 345 x 245 mm, provides plenty of room for washing your hands while occupying a limited space.

STURDY

The GC wash basin is designed to be long-lasting. It is made of food quality stainless steel construction.

ERGONOMIC

Automatic tap starting stopping as soon as hands are put in front or taken away from infra red detection cell, without delay. Electrical power supply by 6 volts battery with a service life of 350,000 presses (3 years).

It comes complete with a hot and cold water pre-mixer, equipped with check valves in order to protect the mains drinking water supply. The tap outlet has an aerator giving a softer stream of water with fewer splashes.

EASY INSTALLATION :

Supplied with 2 flexible hoses, trap and wall fixing support.

LARGE RANGE :

- **3 models with electronic control.**
- **and always 6 models with knee control :** knee-activated, with the tap triggered by pressing a paddle on the front.
